(Login credential for Admin is : username: admin, password: admin123)

Step 1: Extract the files.

Step 2: Open the Shopping-cart-1 spring boot file in spring software and run on tomcat server (preferably tomcat 9.0v).

Step 3: Open the .sql file in MySQL workbench.

Step 4: Open the Angular file in VS Code and install Node Modules.

Step 5: Now run the Spring Boot server.

Step 6: Now run the Angular project (ng serve -o).

Step 7: Now the website will be running on (http://localhost:4200)

Step 8: Now paste the (localhost:8087) Postman in order to see the data stored in backend.
